02 / EXECUTIVE SUMMARY

A new media network. Built and ready to deploy.

GymGaze is a digital out-of-home (DOOH) advertising network built specifically for gyms. We install screens in high-traffic zones, sell ad slots to SA brands and agencies on a CPM model (R65–R85 per 1 000 impressions), and share revenue with the gym partner — 70% to GymGaze, 30% to the venue.

The first partnership is signed. Edge Fitness — one of South Africa's leading gym chains — has committed 14 venues across three provinces for a 3-year term. 94 screens are ready to deploy. The contract is active.

The ask is R 410 000 — purely a hardware and installation capital round. The platform (Cuecast) is already built and running. No software costs, no licensing, no third-party dependency. This round purchases the screens and gets them installed.

The return: Dividends begin within 12 months of deployment (20% of net profit, bi-annually). When GymGaze reaches R 1M annual revenue — projected 12–18 months post-deployment — Mlu may buy back your equity at R 820 000. That is 2× your capital in cash.

WHY NOW?

Partner signed. Edge Fitness contract is executed. No prospecting risk — the venue network is secured.

Platform built. Cuecast is live and operational. Zero software development cost in this round.

One round closes the gap. R 410 000 buys the hardware. Nothing else stands between pre-revenue and first ad live.

03 / THE PROBLEM

Gyms are full of premium consumers. No one is monetising them.

3M+**SA GYM MEMBERS**

Zero premium ad exposure

55 min**AVG DWELL TIME**

Billboards get 3 seconds

LSM 7-10**PREMIUM DEMOGRAPHIC**

No direct channel exists

Traditional OOH catches people passing by. Gym screens catch people standing still — for nearly an hour.

Brands spend millions reaching health-conscious consumers indirectly. There is no gym advertising channel.

Gym operators earn nothing from their greatest asset: the captive attention of their members.

04 / THE SOLUTION

GymGaze installs, operates, and monetises digital screens inside gyms.

1

INSTALL

GymGaze procures and installs screens at high-traffic gym zones — cardio floors, entrance areas, and waiting spaces. No cost to the gym operator.

2

SELL

Ad slots are sold to South African brands and agencies at R65–R85 CPM. GymGaze handles all advertiser relationships, sales, and campaign management.

3

MANAGE

The Cuecast platform manages content scheduling, ad trafficking, proof-of-play reporting, and screen health monitoring — fully automated.

4

EARN

The gym partner earns 30% of ad revenue plus a guaranteed monthly rental fee. Passive income — zero effort required from the venue.

The platform is already built. This round funds the hardware.

05 / THE OPPORTUNITY

R 4.5 billion market. Zero competition in the gym.

DIRECT COMPETITORS

No gym DOOH network at scale

GymGaze enters a proven advertising category (DOOH) in an untapped venue type (gyms). The product doesn't need to convince brands that DOOH works — they already spend billions on it. GymGaze simply unlocks a location they've never been able to access before.

FIRST MOVER ADVANTAGE

No gym DOOH network operates at scale in South Africa. GymGaze is building the category.

06 / THE PRODUCT

Cuecast — Our Proprietary Screen Management Platform

Cuecast is fully built and operational. It manages the entire network — from ad scheduling to proof of play to screen health. Every venue manager has visibility into their own data.

- ✓ Real-time content scheduling and ad trafficking
- ✓ Proof of play screenshots every 10 minutes
- ✓ Screen health monitoring with email alerts
- ✓ Campaign flight dates and occupancy tracking
- ✓ Partner portal — venue managers see their own data

Built in-house by Ivra Labs — no licensing costs, no third-party dependency.

Ad Live**

Edge Fitness is one of South Africa's leading gym chains. Their 14 venues house over 53 000 active members across three provinces. The partnership is signed, the contract is active, and the screens are the only missing piece.

08 / REVENUE MODEL

CPM-Based Ad Sales. 70/30 Revenue Split.

Advertisers pay per thousand impressions (CPM). Each screen loops ads continuously throughout operating hours. Standard 7-second slots and premium 15-second slots are sold at different rates, depending on campaign requirements.

SLOT TYPE	DURATION	CPM RATE
Standard	7 seconds	R 65
Premium	15 seconds	R 85

16 ad slots per screen per loop (8×7s + 8×15s)

REVENUE SPLIT

70% — GymGaze	30% Edge
---------------	----------

Rental fees: R 1 300–R 2 500/venue/month, activating at ≥35% occupancy floor.

WIDGET SPONSORSHIPS

Additional high-margin revenue stream from content widget sponsorships:

News Ticker	R 12 000/mo
Sports Scores	R 15 000/mo
Weather Widget	R 8 500/mo
Bundle	R 30 000/mo

Occupancy floor: At 35% occupancy, rental fees activate and become payable to venue partners — protecting GymGaze's margin until commercial momentum is demonstrated.

09 / REVENUE PROJECTIONS

Phase 1 — 94 Screens, 14 Edge Fitness Venues

SCENARIO	OCCUPANCY	GROSS/MO	GYMGAZE NET/MO	GYMGAZE NET/YR
Conservative	35%	R 37 800	R 26 460	R 317 520
Base Case	70%	R 75 600	R 52 920	R 635 040
Optimistic	100%	R 108 000	R 75 600	R 907 200

ANNUAL NET REVENUE (GYMGAZE)

Buyback trigger (R 1M ARR) requires ~75–80% occupancy — projected 12–18 months post-deployment.

Phase 2 adds additional gym networks beyond Edge Fitness — not modelled here.

Net figures after 30% Edge Fitness revenue share. Rental fees (R 28 700/mo total network) activate at ≥35% occupancy floor.

10 / USE OF FUNDS

R 410 000 — Fully Allocated to Deployment

Screen hardware (94 units + mounts)	R 300 000
Installation labour (14 venues)	R 56 000
Internet setup (LTE routers × 14)	R 28 000
Content creation + onboarding	R 14 000
Contingency	R 12 000
Total	R 410 000

ALLOCATION BREAKDOWN

~R 3 200/screen all-in (unit + mount) · ~R 4 000/venue installation

CAPITAL DEPLOYMENT ROUND

Every rand in this round goes toward physical deployment. Platform is built. Team is in place. This is purely a hardware capital round.

11 / THE TEAM

Built by someone who's done it before.

Mlungisi Busakwe

Founder & CEO, GymGaze

10+ years in marketing and media. Founded **Box Board Advertising** — a township OOH network with 10+ active sites across the Eastern Cape, built from zero into a solid local player. Founded **Busakwe Advertising** — static and digital billboards in high-LSM areas, with active clients including Pineapple Insurance and Cadbury.

3 years focused specifically in the media space, with a track record of identifying underserved advertising audiences and building networks to reach them.

GymGaze is the next evolution — same instinct, bigger canvas.

10+ Years Media

2 OOH Companies Built

Real Advertiser Clients

TECHNOLOGY PARTNER

Ivra Labs

AI-powered software development studio. Built and maintains all GymGaze platform technology, including Cuecast. No licensing costs — full ownership.

The platform is not a dependency risk. We own it.

12 / THE DEAL

Here is exactly what you get.

Investment	R 410 000
Equity	25% of GymGaze
Implied Pre-Money Valuation	R 1 640 000
Dividends	20% of net profit, paid bi-annually
First Dividend Expected	Within 12 months of deployment
Buyback Right	Mlu may repurchase 25% at R 820 000
Buyback Trigger	GymGaze reaches R 1 000 000 annual revenue
Buyback Window	24 months from trigger date

R 410 000
YOUR INVESTMENT

25%
EQUITY HELD

R 820 000
BUYBACK PRICE (2x)

"Double your money in cash — or hold equity in a profitable gym media network. Both are good outcomes."

Bi-annual dividends (every 6 months) account for the 45–60 day agency payment cycle standard in OOH. You receive 20% of net profit after all operating costs.

13 / PATH TO BUYBACK

The road from R 410 000 to R 820 000.

1

Investment

R 410 000 in. 94 screens ordered and procurement begins.

Day 0

2

Deploy

Hardware installed across all 14 Edge Fitness venues. Network goes live.

Month 1-2

3

Revenue Begins

First ads playing. First impressions delivered to 53 587 members.

Month 3

4

Dividends Begin

20% net profit, bi-annual. First cheque delivered to investor.

Month 12

5

Buyback Trigger

GymGaze hits R 1M ARR (~75% occupancy). 24-month buyback window opens.

Month 12-18

6

Buyback

MLU repurchases your 25% at R 820 000. You 2× your money in cash.

Within 24mo of trigger

If the buyback doesn't happen within 24 months of trigger — **you continue holding 25% equity and receiving bi-annual dividends.** You never lose your position.

DIVIDEND SCENARIOS

Conservative (35%): R 317 520/yr net → dividends in Year 1

Base Case (70%): R 635 040/yr net → dividends in Year 1

14 / RISK & MITIGATIONS

We've thought about what could go wrong.

RISK	MITIGATION
Slow advertiser ramp-up	Edge Fitness contract guarantees venue access for 3 years. GymGaze actively books advertisers — no dependency on venue to sell.
Screen hardware failure	GymGaze-warrantied equipment, remote monitoring via Cuecast health alerts, on-site repair within 48 hours.
Agency payment delays	Dividends paid bi-annually specifically to account for 45–60 day agency terms. No month-to-month cash flow risk to investor.
Venue exits contract early	3-year term with 6-month notice. GymGaze retains screens (GymGaze-owned hardware) and can redeploy to new venues.
Advertiser category conflicts	Edge Fitness provides approved/excluded advertiser category list. GymGaze enforces content moderation on all creative.

The biggest risk is slow sell-through. The mitigation is the 35% occupancy floor — rental only activates when we've proven commercial momentum.

R 410 000 to deploy 94 screens and go live.

The platform is built. The partner is signed.

The hardware is what's missing.

Within 90 days of your commitment, the first ad plays on the first screen.
