SERIES SEED — 2026

South Africa's Gym Media Network

Turning idle gym screens into a high-performance digital out-of-home advertising network — powered by proprietary software.

GYM DOOH PENETRATION
SA gyms — largely untapped

Digital Out-of-Home advertising is one of the fastest-growing media channels in South Africa. Yet gyms — venues with captive, affluent, health-conscious audiences — remain almost entirely unmonetised from an advertising perspective.

Gym members are a premium demographic. LSM 7–10. High disposable income. Brands pay a premium to reach them — but currently have no scalable, measurable way to do it inside gym environments.

THE GAP
Gyms have screens. Advertisers want audiences. Nobody has built the network to connect them — until now.

WHY GYMS WIN

01 CAPTIVE AUDIENCE
Members stay 45–90 min. Eyes on screen repeatedly during workout.

02 PREMIUM LSM
LSM 7–10 demographic. High-value target for brands.

03 MINDSET ALIGNMENT
Health, fitness, lifestyle products — perfect context.

04 MEASURABLE
Proof of Flight reports. CPM-based billing. Fully trackable.

WHAT WE BUILT

A complete gym media operating system.

GymGaze installs digital screens across gym venues and manages them as a unified advertising network — from content scheduling to campaign reporting — through proprietary software.

1 INSTALL SCREENS
GymGaze supplies and installs 102 screens across 14 Edge Fitness venues in 4 provinces.

2 RUN CUECAST
Proprietary CMS (Cuecast) schedules ad slots, widget content and brand campaigns remotely.

3 SELL AD SLOTS
Sales team sells CPM-based campaigns to local, regional and national advertisers and agencies.

4 REPORT & PAY
Automated Proof of Flight reports. Agencies pay in 45 days. GymGaze shares revenue with venue.

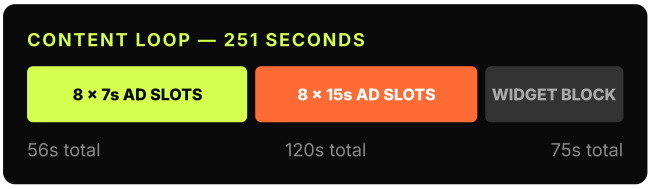

THE COMPETITIVE MOAT

GymGaze owns its own technology stack — the GymGaze platform + Cuecast CMS. Most DOOH operators rent third-party software. We built ours. That means lower operating costs, full control, and a proprietary asset that grows in value with every venue added.

THE LOOP MODEL

251 seconds. 16 ad slots. 1,487 plays per slot per week.

Every screen runs a continuous 251-second content loop. Each loop contains 16 paid advertising slots and a widget block — creating a structured, premium inventory that advertisers can buy by CPM.

GROWTH PLAN

Phase 1 funds Phase 2. Phase 2 builds the Series A.

PHASE 1 — NOW

Deploy Edge Fitness

Install 102 screens across 14 venues. Onboard first advertisers. Achieve 30%+ sell-through within 6 months.

FUNDED BY THIS RAISE

- ✓ 102 screens installed
- ✓ 3 staff hired
- ✓ First campaigns live
- ✓ R217k+ net profit/mo

PHASE 2 — YEAR 2

New Gym Networks

Onboard 2–3 additional gym chains (Planet Fitness, Virgin Active, Gym Company). Target 300+ screens. Self-funded from Phase 1 revenue.

SELF-FUNDED FROM PROFIT

- → 300+ screens
- → 30+ venues
- → National footprint
- → R1M+ ARR trigger

PHASE 3 — YEAR 3–5

Series A or Exit

At 500+ screens and proven unit economics, raise Series A for national scale — or accept acquisition offer from OOH media group at target R20–25M valuation.

INVESTOR EXIT WINDOW

- → 500+ screens
- → Series A / M&A
- → R20–25M target exit
- → Investor 10–17× return
